#### Detailed Rationale

Crisil Ratings has reaffirmed its 'Crisil BBB+/Stable' rating on long-term bank facilities and debt instruments of Dvara Kshetriya Gramin Financial Services Private Limited (Dvara KGFS).

Crisil Ratings has **withdrawn** its rating on long term principal protected market linked debentures amounting Rs.20 crore and non-convertible debentures amounting Rs 136.4 crore. Crisil Ratings received independent confirmation that these instruments are fully redeemed. This in line with Crisil Ratings' withdrawal policy (See 'Annexure – Details of rating withdrawn').

The ratings continue to factor in the extensive experience of the company's founders and leadership team and its adequate capital position supported by steady equity infusion, including the upcoming round planned for the near term. These strengths are partially offset by modest, though gradually recovering, asset quality and profitability due to inherent exposure to borrowers with weak credit profiles and local socio-political issues, and small scale of operations with regional concentration.

The company's assets under management (AUM) stood at Rs 1,922 crore as on March 31, 2026, declining from Rs 2,202 crore of AUM, a year ago – on account of ground level challenges prevailing in the retail unsecured loans and microfinance sector since the onset of fiscal 2025. That, in addition to the company's strategy of migrating towards a higher share of enterprise loans in the overall AUM, thereby partly defocusing from the Joint Liability Group (JLG) portfolio – resulted in calibration of growth strategy over the last two fiscals. As on March 31, 2026, 57% of the portfolio was deployed as JLG loans, whereas the balance was extended as enterprise loans and others. This compares to 68% of JLG loans as of March 31, 2025.

Asset quality has improved supported by better performance of the book originated post-guardrail and tightened underwriting in the enterprise loan book. 90+ days past due (DPD) stood at 0.6% for the book originated after August 2024. The company's ability to substantially improve overall asset quality and maintain it at sound levels, remains a rating sensitivity factor.

In terms of headline numbers, gross non-performing assets (GNPA) and net non-performing assets (NNPA) reduced to 3.7% and 1.6%, respectively, as on March 31, 2026, from 8.5% and 3.9%, a year ago. Apart from better resolution and collections of delinquent customers, the reduction in NPAs also includes the effect of Rs ~512 crore of pool sold to an Asset Reconstruction Company (ARC) and Rs ~13 crore of write offs done during the fiscal.

While the company has significantly incremental slippages, the total unprovided weak assets (including net NPA – largely pertaining to the old book, outstanding net security receipts [SRs], and stage 2 assets net of provisions) of the company stood at 7.2% of the AUM as on March 31, 2026. This will be partly offset by equity infusion of over Rs 45 crore, expected in the near term.

The company reported net losses for fiscal 2026. Credit costs, which rose from 3.4% in fiscal 2024 to 5.6% in fiscal 2025, improved to 4.0% in fiscal 2026. During the last fiscal, the entity also reported quarter-on-quarter reduction in provisions & write-offs, leading to better profits in second and third quarter of fiscal 2026. However, the impact of muted disbursements on interest income, and effect of interest reversals in fourth quarter following sale to ARC led to net losses in quarter ending March 2026. Return on managed assets (RoMA) declined from 1.9% (Profit after tax [PAT] of Rs 48 crore) in fiscal 2024 to marginal break-even with PAT of Rs ~1 crore in fiscal 2025 and remained weak at -1.4% (loss of Rs 37 crore) in fiscal 2026.

While the yields have stabilised and credit costs have started to improve gradually, with growth and better asset quality of the newer portfolio, the company's profitability is expected to improve only at a gradual pace and, will remain a monitorable.

The overall financial risk profile is supported by adequate buffer in capitalisation metrics. On March 31, 2026, the company reported a Tier I and overall capital adequacy ratio (CAR) of ~17.8% and 24.3%, respectively whereas gearing stood at 4.8 times on the same date, despite the net losses in last fiscal. Crisil Ratings also notes that the company is in advanced stages of raising equity capital of over Rs 45 crore in the first half of fiscal 2027. This incoming round of equity infusion has been centrally factored into the rating and any change in the timing or amount of this capital, will be a key monitorable.

### **Analytical Approach**

Crisil Ratings has evaluated the standalone business and financial risk profiles of Dvara KGFS.

### **Key Rating Drivers - Strengths**

#### **Experienced board and management profile**

The entity was founded by eminent industry professionals like Mr. Nachiket Mor and Ms Bindu Ananth with the vision to enhance financial inclusion. With evolution in the regulatory landscape and market dynamics, the business model has also evolved with changes in growth and diversity aspirations and product profile. Also, over the years, the company has onboarded other investors like Leapfrog, Stakeboat Capital, Accion, and Sparkassen with high pedigree on its board. As on March 31, 2026, Dvara Trust and Dvara Holdings together hold ~29.6% in Dvara KGFS; Ms Bindu Ananth remains on the board of Dvara Trust. The board of Dvara KGFS is chaired by Mr Samir Shah, who has been associated with the group for close to a decade now.

Apart from Mr. Samir Shah, the board of the company comprises other eminent members from financial and allied sectors. Further, Mr. L V L N Murty, Managing Director & CEO, has close to three decades of experience and developed expertise in building businesses for remote rural markets. The senior management team is also seasoned with close to two decades of experience in the rural financing industry, microfinance sector and NBFC segment. Accredited to this, the management team understands the nuances of underwriting in this segment, underlying risks and the financial requirements of the borrowers. In the past, this experience has aided the company's ability to navigate through disruptions like demonetization and the pandemic outbreak.

#### **Adequate capitalisation**

The company's capital position remains adequate in relation to the scale and nature of business, evidenced by a net worth and tier I capital adequacy ratio of Rs 414 crore (including compulsorily convertible preference shares of Rs ~26 crores) and 17.8%, respectively, as on March 31, 2026, vis-a-vis Rs 424 crore and 17.5%, respectively, as on March 31, 2025. On-book gearing stood at 4.3 times as on March 31, 2026, against 4.1 times, as on March 31, 2025. Correspondingly, adjusted gearing dropped to 4.8 times from 5.1 times for the same dates, respectively.

While the company reported loss of Rs ~37 crores in fiscal 2026, the net worth was supported by the company's ability to raise equity capital on regular basis. In May 2025 – the company raised 3 million euros (~Rs 26 crore) as equity capital from a German investor Sparkassen International Development Trust GmbH (SIDT), which partly offset the effect of negative accretions to networth.

In the past, too, the company has received steady capital infusion by Dvara Trust, Dvara Holdings and other investors that supported the company's operations. Dvara group remains the single largest shareholder and holds ~29.6% stake in the company. This is followed by Accion Africa-Asia Investment Company and Leapfrog Financial Inclusion India (II) Ltd holding ~22.0% and 20.3%, respectively.

In the near term, the company is expected to raise fresh equity capital of over Rs 45 crore in the first half of fiscal 2027. This incoming round of equity infusion has been centrally factored into the rating and any change in the timing or amount of this capital, will be a key monitorable.

### **Key Rating Drivers - Weaknesses**

#### **Modest asset quality and profitability due to inherent exposure to borrowers with weak credit profiles and socio-political issues**

The company's GNPA and NNPA, though reduced to 3.7% and 1.6%, respectively, as on March 31, 2026, from 8.5% and 3.9%, a year ago – remain volatile. In fiscal 2025, the company faced asset quality challenges due to ground-level disruptions, including over-leveraging of borrowers in the unsecured retail loans & microfinance sector and heightened attrition at the field level, leading to increased slippages. The GNPA subsequently peaked at 10.9% as of June 30, 2025.

In response, the company recalibrated its growth strategy and implemented several measures to improve asset quality. These included tightening of JLG product underwriting policies, strengthening of collection efforts, curtailment of JLG disbursement, adoption of stronger risk monitoring practices, and selling off stressed assets to Asset Reconstruction Company (ARC). Following ARC transactions, the company continues to hold Rs ~139 crore of net stressed assets which includes Rs 113 crores of net Security Receipts (SRs), Rs 14.6 crore of net stage 2 assets and Rs 28.6 crores of NNPA (cumulatively forming ~7.2% of AUM as on March 31, 2026).

Overall collection efficiency, after bottoming out towards the mid of fiscal 2025, improved to above 90% in November 2025 and, has remained at ~95% in March, April and May 2026. This is a factor of increasing share of new originations that have an inherently better collection efficiency, and small, though steady, recoveries from legacy accounts.

Despite Dvara KGFS operating as an NBFC (not NBFC-MFI), a significant portion of the portfolio comprises loans given to individuals under the JLG mechanism. Its customers generally have below-average credit risk profiles with lack of access to formal credit. Such borrowers are typically farmers, tailors, cattle owners/traders, small vegetable vendors, teashop owners, and dairy farmers etc. The income flow of these households could be volatile and dependent on the performance of the local economy.

Moreover, the company is inherently exposed to socio-economic disruptions. Past events such as demonetisation in 2016 and the outbreak of Covid-19 in March 2020 – have impacted the sector. These events triggered a chain of events that adversely affected the business models of MFIs and entities catering to microfinance borrowers, by impairing their growth, asset quality, profitability and solvency. The sector also remains susceptible to regional issues such as elections, natural calamities and borrower protests, among others, which may result in momentary spurt in delinquencies. This indicates the fragility of the business model to external risks. As the business involves lending to the underserved sections of society, Dvara KGFS will remain exposed to socially sensitive factors, including high interest rates, tighter regulations and legislations.

With the asset quality restoring, the credit costs have improved to 4.0% in fiscal 2026 from 5.6% a year back. Nonetheless, it remains elevated. With that, as the asset profile of the company has been pivoting towards non-microfinance segments, allied operating expenditure has increased to 7.9% in fiscal 2026 from 6.0% in fiscal 2025 – with some effect of base.

Resultantly, reported loss for fiscal 2026 was Rs 37 crores as against a marginal profit of Rs ~1 crore for the previous fiscal.

Over the near term, as the pace of improvement in collection efficiency remains gradual – asset quality and profitability are expected to improve only gradually. In addition, the ultimate loss emanating from unprovided weak assets and its impact on earnings, will be key. Thus, the company's ability to control further slippages and enhance recoveries, while resuming growth - remain key rating sensitivity factors.

#### **Small scale of operations marked by regional concentration**

Though still high, the regional concentration has improved gradually from a single state exposure level of 56% (Tamil Nadu) in March 2023. To achieve this, the company has inorganically expanded into Odisha, Jharkhand, and Uttar Pradesh through the strategic acquisition of 66.5% stake in Saija Finance Pvt Ltd (Saija) in FY2022. Correspondingly, AUM exposure to the top 3 states has declined from 79% in March 2023 to 66% in March 2026, over the same period.

Dvara KGFS initiated its operations in 2008. Later in 2018, after the restructuring of the organization, the company initiated its operation in Tamil Nadu, Uttarakhand and Odisha. Later, by the acquisition of Varam Capital in 2019 and Saija in 2021, it accessed other northern geographies like Chattisgarh, Bihar, Jharkhand, amongst others. While this reduced the skewness of operations towards the southern states, Tamil Nadu and Karnataka cumulatively continue to comprise about 53% of the AUM. This exposes Dvara to regional disruptive occurrences related to natural disasters and man-made events. Disruptive events in any region which has a relatively larger share of portfolio, could have a material impact on the company's business risk profile

Additionally, between 2018-22, the company revised its business strategy to align its progress with the evolving regulatory and market landscape of the sector. However, this journey of transition was hindered by multiple macro disruptions like demonitisation, NBFC sector stress, and natural calamities like Covid, Gaza Cyclone. Thus, the pace of growth and scale up has been comparatively moderate. As on March 31, 2026, the AUM of Dvara KGFS stood at Rs 1,922 crore, registering YoY decline of ~13% over the previous FY.

To curtail the volatility in performance due to high proximity to the microfinance sector and thus, the challenges inherent to it, the company has been working towards two core objectives: regional and product diversification. For regional diversification, the company has been expanding into non-southern states gradually whereas for product diversification – there is higher focus on micro enterprise loans whereas exposure to JLG has been declining. The ability of the company to profitably scale the MEL portfolio and expand geographically, remains a key rating sensitivity factor.

#### **Liquidity Adequate**

As of June 30, 2026, the company had a total unencumbered liquidity balance of ~Rs 94 crore, including liquid investments, and un-utilized debt facilities, against cumulative debt obligation and operating expenditure of Rs 81 crore for the month of July 2026. The incoming round of equity capital is expected to add to this cover in the near term. Any significant reduction in liquidity cover over debt obligations due to be paid over the succeeding one month – will be a key monitorable.

Additionally, Dvara KGFS remains in breach of certain debt covenants. However, none of its lenders have recalled the debt facilities till yet. In Q1 2027, the company raised Rs 170 crore as external resources, as compared to Rs 122 crore for the corresponding quarter of last fiscal and the ability to raise funds sustainably in the normal course of business, remains critical.

#### **Outlook Stable**

Dvara KGFS is expected to maintain adequate capital position and, also benefit from the experience of its promoter and management in the micro lending industry.

#### **Rating sensitivity factors**

##### **Upward factors**

- Increase in scale of operations and geographical diversity marked by no single state accounting for more than 40% of the overall AUM with asset quality metrics remaining sound
- Return on assets improving to and, remaining above 2.5% on a sustainable basis
- Significant improvement in capitalization profile

##### **Downward factors**

- Lack of improvement in asset quality or/ and earnings profile.
- Inability to sustainably mobilize resources from lenders impeding growth prospects
- A significant delay, and/or reduction in quantum of equity infusion planned to be infused in the near to medium term

- Adjusted gearing remaining above 5 times for a prolonged period

#### About the Company

Dvara KGFS was set up in FY2008 by Dvara Trust for extending unsecured and secured loans to rural areas in the country. The company was founded by Ms Bindu Ananth and Mr Nachiket Mor. Dvara KGFS focuses on extending multiple financial products for the lending, savings and insurance requirements of individuals in rural areas. The company positions itself as a rural wealth manager providing loans and financial products to customers. It largely extends JLG and unsecured enterprise loans, which comprise more than 95% of the total loans. The JLG loans are up to a ticket size of Rs 50,000 and the enterprise loans up to Rs 5 lakh. The company lends at interest rates of 24.5-27.75% for the JLG loans and 26-29% for the enterprise loans.

During FY2019, the business correspondents and corporate agency business of the IFMR Rural Channels and Services Pvt Ltd (holding company of Dvara KGFS) and IFMR Holdings Pvt Ltd (ultimate holding company) were amalgamated with the company.

\* Includes securitisation transactions involving assignee payout, acquirer's payout.

~ The rated instrument may involve issuance of different instruments such as debt securities (listed or otherwise), bank loans, commercial paper (listed or otherwise), etc. The regulator of the instrument may accordingly be SEBI, RBI or MCA and can only be determined upon issuance. In PRs subsequent to issuance(s), Crisil Ratings Limited shall separately capture the rated quantum details along with names of respective regulators.

^ Includes bank facilities such as liquidity facility, second loss facility that are part of securitisation transactions.

# There is no instrument being rated and hence, Regulator of the Instrument is not applicable. The rating scale and definitions are being followed as stipulated in SEBI Master Circular for CRAs.

@ These ratings were assigned during regulatory regime prior to introduction of SEBI CRA Circular dated Feb 10, 2026 and the investor side regulators have accordingly been included.

Note: Kindly note that for activities or instruments falling under the purview of FSRs other than SEBI, the grievance/dispute redressal mechanisms and investor protection mechanisms provided by SEBI shall not be available.

**About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)**

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
